The #TherapyMovement

Let's reimagine therapy and therapist education.

Support a movement to innovate and improve the mental health profession and empower diverse voices in the field. Work with us to bridge the gap between therapist education and actual therapist experiences.

Through our [podcast](#) and [continuing education](#), we're exploring how to navigate the role of therapist as it is now.

The #TherapyMovement

We work to:

- **Create sustainable careers**, supporting sound business practices, the incorporation of technology, and adequate pay for all therapists.
- **Improve education** to reflect modern practices, support high quality clinical work, train therapists to care for themselves, and address the diversity in our communities.
- **Increase representation across the field**, supporting inclusion on our stages, in our classrooms, and in our offices.
- **Improve access to mental health care** without requiring sacrifice, financial instability, and burnout from therapists.
- **Cultivate a strong network** from within, so that therapists are empowered in their lives and in their practices.

Who We Are

We are **Curt Widhalm** and **Katie Vernoy**! We're both Licensed Marriage and Family Therapists (LMFTs) in the Los Angeles area. Before founding Therapy Reimagined in 2017, we created successful private practices and became actively involved in the profession in many ways. Curt is the current chair of the California Association of Marriage and Family Therapists (CAMFT) Ethics Committee and has a group practice in Los Angeles. Katie is a past CAMFT President and current member of the CAMFT Ethics Committee. In our current work, we have come together to start a #TherapyMovement that reimagines the profession for the modern age. Our podcast and continuing education are different because we're willing to talk about what others avoid. We spotlight the importance of incorporating who you are as a person, a business owner, and a citizen in the world. We emphasize the importance of diversity, advocacy, and authenticity.
